PROFESSIONAL SUMMARY

Motivated and detail-oriented aspiring Software Engineer with foundational knowledge in programming, problem-solving, and system analysis. Passionate about building practical software solutions and continuously improving technical skills through hands-on projects. Experienced with C++, web development technologies, and collaborative project work. Currently seeking an internship or entry-level opportunity to contribute to real-world software development while growing within a dynamic engineering team.

TECHNICAL SKILLS

Programming Languages: C++, Python (Beginner), JavaScript, PHP, JAVA(Beginner)

Web Technologies: HTML, CSS, JS, React, NextJS(Beginner)

Web Designs: Figma, Framer

Tools: Git, GitHub, VS Code, Microsoft Office Suite

PROJECTS

Seek Jobs Ghana

– Built an online job vacancy website like LinkedIn with HTML, CSS, JS and PHP. It has been one of my projects I like working on anytime I get.

Portfolio Website

– Built a personal portfolio using HTML, CSS and JS to showcase projects and improve front-end skills.

Basic Calculator with Reactive Background (JavaScript)

– Developed a simple mini-calculator supporting basic arithmetic operations to practice easy programming logic.

Basic Calculator (C++)

– Developed a command-line calculator supporting basic arithmetic operations to practice programming logic.

Massage And Spa Website

– Built a modern and responsive massage and spa website where clients can book for treatments and subscribe for messages.

Student Record Manager (C++)

– Created a simple console application for storing and displaying student details using functions and arrays.

Bank Registration System (C++)

– Designed and implemented a console-based banking application that supports customer account creation, deposit operations, and cash withdrawals.

WORK EXPERIENCE

Frontend Developer & Web Designer

Champions Dialogue — Active

- Provided modern, dynamic and responsive frontend websites for the company and its clients.
- Designed website and mobile apps for our clients and major start-ups.
- Maintained discipline by making sure the team sort every project out successfully.
- Improved communication skills by assisting other developers to fix bugs in codes.

EDUCATION

GHANA COMMUNICATION TECHNOLOGY UNIVERSITY
